

Personalize Homescreen on Your iOS Device

06.24.2015

|iOS 4 - iOS 9|

Step 1 - Shop for the Desired Home Screen Online

A good place to start would be at [Lifehacker](#) or iTunes. In this board, we recommend App Icon

Step 2 - Look for App Icon in iTunes

[Get](#) the App and Install it on your iOS device.

Step 3 - Start by Customizing icons

Start the app and tap “Style.” Select “All” to see the options for customization. You can also play with different color and pattern combinations, to get the icon of your liking.

Step 4 - Choose Foreground and Background Styles

In “Style”, tap “Background” to choose a background from your photos, for your home screen. Similarly, tap “foreground” and select your preferred image.

Step 5 - Explore and Share

Congratulations! You have now customized your home screen. You can now impress your friends and find even more unique icons and background images.
