

Replace Broken or Cracked Screen

07.26.2015

| iPhone 5, iOS 5 - iOS 8 |

Overview

iPhone screens can be fixed through Apple for a price but this board concerns fixing an iPhone screen manually. This may void your warranty, so be careful.

Step 1 - Buy a replacement screen

You can find them online. A good quality one will come with the home button, camera, and earpiece attached.

Step 2 - Remove Screws

Unscrew the screws on the bottom of the iPhone. Make sure that your phone is turned off.

Step 3 - Remove Screen

The front screen can be removed with a suction cup and any flat tool.

Step 4 - Remove Ribbon Cables

Unscrew these three screws to remove the ribbon cables connecting the screen to the base.

Step 5 - Replace Screen

Attach your new screen to your iPhone via the ribbon cables and then reassemble iPhone.
